

Gio @5

Professional control – scaled just right

Gio @5

THE LITTLE CONSOLE THAT HAS IT ALL

Full programming layout with backlit keys? *Check*. Encoders with haptic feedback? *Check*. Short-throw motorized faders? *Check*. Built-in multi-touch display? *Check*. Keyboard tray? *Check*. The Gio @5™ console combines all the professional programming essentials in a package that fits tighter spaces – and tighter budgets.

Whether you're an Ion® user looking for more hands-on access to playbacks, color control and Magic Sheets or an experienced Eos® user looking for a more portable desk, the Gio @5 console is the perfect fit. You can customize your workspace with additional monitors and Motorized Fader Wings – the console is compatible with all Eos family accessories – but the rich, compact feature set of the Gio @5 desk means that you've always got what you need to get programming.

Key features of the Gio @5 console include:

- The Gio/Eos Ti® facepanel layout, including the backlit keys, master fader pair and fader controls keys
- Five 60mm motorized faders and associated controls/displays
- One integral, 17-inch, articulating multi-touch monitor
- Two sets of controls keys along the left side of the display
- Two network ports (Non-PSE) and 4 Hardline DMX/RDM ports
- One Littlite port
- Contact closures for remote triggers
- Output capacities from 2K to 32K, upgradable in 1K increments
- Support for up to two external high-resolution multi-touch monitors and all Eos family accessories
