

# MINI ATHENA MkII

## HIGH-POWER LED BAR

11W — 44W

### DESCRIPTION

The Mini Athena MkII is a high-output compact linear LED bar designed for architectural feature and general lighting applications.

A low voltage version of the FIM, the Mini Athena MkII is available in single colour, warm/cool white, or RGB colour-changing. It's perfect for lighting architectural features, grazing walls, lighting passages, stairways, windows, and much more.

Its elegant anodised aluminium profile allows it to blend into interiors, and is available in various housing colours (on request).

Fully dimmable with external LED drivers (sold separately), it can also be integrated into lighting control systems (e.g. Clipsal C-Bus, Philips Dynalite).

The Mini Athena MkII - the compact choice.

### FEATURES

**Collimators** High precision optics available in narrow, medium, wide, and elliptical angles to suit every application.

**Lens** Transparent and shock-resistant.

**Housing** Anodised aluminium, custom colours available\*.

**Cable** Flexible, low voltage, CAT5 for constant current operation.

**Adjustable Bracket** Allows the mounting of the luminaire in various positions.

## SPECIFICATIONS

### Housing

Aluminium, \*clear anodised as standard (custom colours available on request)

### Ingress Protection

IP40

### Control

Constant current 350mA via Space Cannon Control Series 350mA DMX drivers.

### LEDs

Philips Lumileds LUXEON Rebel LEDs  
 300mm: 9 LEDs  
 600mm: 18 LEDs  
 900mm: 27 LEDs  
 1200mm: 36 LEDs

### LED Optics

Specify at time of order: 6°, 20°, 30°, 45°, 9x45°. Also available with no optics.

### LED Colours

Single colour:  
 Red, Green, Blue, Amber, Cool White, Warm White.  
 Also available in variable white and variable colour (RGB).

### Power

300mm: 11W  
 600mm: 22W  
 900mm: 33W  
 1200mm: 44W

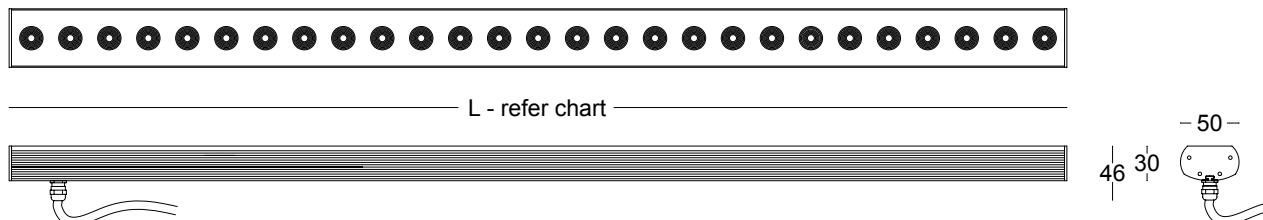

### Accessories

Mounting brackets

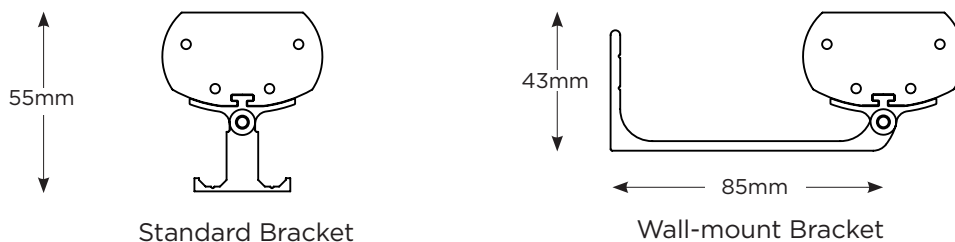

### Accessories not included

DMX controller
